

INTRODUCING EZ SEAL® PIPE BY GRAY METAL SOUTH

Why wait for them to catch up?
They're still using tape!

STANDARD
ON EVERY EZ SEAL® PIPE
at no additional cost

The new Gray Metal South
pre-applied mastic along
the entire length

EZ SEAL® PIPE...LIKE NO OTHER

EZ SEAL® Pipe is created by applying duct sealant along the entire length of the pipe in the female side of the button lock. It eliminates the need for tape or brushed mastic along its entire length.

EZ SEAL® Pipe saves time and money on installations.

EZ SEAL® Pipe creates an air tight seal.

EZ SEAL® Pipe meets or exceeds SMACNA seal classes A, B, and C.

EZ SEAL® Pipe meets or exceeds SMCNA pressure classes ½, 1, 2, 3, 4, 6, and 10 w.g.
